IES Rochester Section Presents

Applying Wireless Technologies To Connected Lighting As A Catalyst For The Internet Of Things (IoT)

Presented by Brian Drew
**Northeast Regional Sales Manager - Connected Systems,
Cooper Lighting Solutions**

This lunchtime presentation will explore how we use wireless controls to meet control strategies and how wireless controls provide a steppingstone to the Internet of Things (IoT). We'll look at the history that has brought lighting and controls they are at today and how wireless is now the leading solution for connected lighting applications. It will also cover common wireless control technologies and how they work, look at triggers in control applications that may require I.T. involvement addressing security concerns and discuss the role of wireless connected lighting plays in the internet of things with real world examples.

THIS PROGRAM QUALIFIES FOR 1.0 LU/HSW HOUR

Wednesday April 19, 2023 - 12:00-1:00
Dinosaur BBQ - Upstairs Meeting Room
\$35 includes lunch
