presents

LIGHTING THE GREAT OUTDOORS

UNDERSTANDING THE CHALLENGES OF LIGHTING
EXTERIOR ENVIRONMENTS

Open to anyone interested in learning about lighting exterior environments especially lighting designers, town planners, building officials, zoning councils and boards

Topics will include basic lighting terminology as well as an overview of topics including outdoor lighting criteria and concerns in different applications, luminaire performance and design characteristics, outdoor lighting code guidelines and considerations when creating code.

Presented by: Michael Trippe, LC, MIES
Specification Sales, Point Source Group, inc

About the presenter: Michael Trippe has been in the lighting industry for 33 years mostly in design/specification. A graduate of the University of California at San Diego, he is a member of the Illuminating Engineering Society (IES) and is NCQLP LC certified. Michael has presented or co-presented many courses over the years including the IES *Fundamentals of Lighting*, IES *Controls Seminar* and the IES Seminar *Light & Health*. He has authored several AIA presentations including *Sources of Light*, *LED Lighting Technology* and *Lighting Controls Basics*
